Dementia occurs as a result of physical changes in the structure of the brain, affecting memory, behaviour and emotions. Dementia normally gets worse over time and common signs include memory loss affecting skills at work and difficulty performing familiar tasks."

## President judy'S July jottings

Now we are really experiencing the winter chill after a long warm winter.

The time has arrived for us to reflect on the Inner Wheel 2010/2011 We have endeavoured to

**Commit with Conviction, Compassion, and Consistency.**

Congratulations to District Chairman Joanne and her incoming Committee for the next 12 months.

The District Meeting in Taradale was a great success and well organised.

Thank you to our Club members who provided the morning and afternoon teas and lunch and to those who were able to help out in any way in the kitchen. Our Club was well represented with observers and helpers which is a true indication of the continuing support for Joanne and our other District representatives for the incoming year.

Thank you to everyone for your support over the past 12 months and especially to my Committee who have always been there when something needed doing. Well done.

I look forward to seeing you all at the next meeting and at Karen's Changeover on the 23<sup>rd</sup> July.

Yours in Inner Wheel friendship Judy

NB *A very important addition to our newsletter, that I sent before receiving this letter from Judy. Fortunately it means that Judy can have more space for her special farewell jottings to you all!*

*Thank you Judy for your work as our President Jane*
